AB A method for making a scent material helping to prohibit smoking that has excellent pharmacol. effects including sedation, expectoration, and antitussive action is provided to stop smoking easily without side effects. The scent material helping to stop smoking is produced by getting powdered 32-35 weight% of Perilla frutescens, 28-32 weight% of Artemisia argyi LEV., 10-13 weight% of Cinnamomum cassia presl., 5-3 weight% of Agstache rugosa O. KTZE, 10-6 weight% of A. villosum, 7-5 weight% of Zingiberis Rhizoma, and 6-5 weight% of Mentha arvensis L. and mixing together, adding scent to the mixture by spraying 2-1 weight% of liquid scent of orange, and then adding 0.5-1.2 weight% of glycerin and drying by 10-15% of water content. The scent material(40) can be filled in a pipe(10) for prohibiting smoking.
